Walsh; Facility Managers, Facility Coordinators

EASP

To assist me with coordinating the schedule of the approximately 1,500 employees who will participate in the Employee Asbestos Safety Program, I have requested the appropriate section heads (copied above) to assign a member of their staff as facility coordinator. Attached is a list of those who have been assigned this task. I anticipate having several meetings with the facility coordinators to discuss such items as facility responsibilities once training is completed, training news updates, etc.

Don MacIntyre
Asbestos Training Coordinator
Asbestos Control Program
